

Monte Motola SCI - IT8050028

Legend

-  Cilento and Vallo di Diano National Park
-  Monte Motola SCI - IT8050028
-  Habitat 9220* - Apennine beech forests with *Abies alba* and beech forests with *Abies nebrodensis*
-  B2 Intervention Area

Actions performed in B2 Intervention Area:

- A.1 - Assessment of the levels of biological diversity
- A.2 - Assessment of the current forest structure
- A.3 - Projects definition for the concrete actions
- C.1 - Promotion of the regeneration of the species that characterize the Habitat 9220*
- C.3 - Enhancement of the diversity in terms of understory species and epiphytic lichens
- C.5 - Enhancement of the diversity of saproxylic organisms
- C.7 - Enhancement of the diversity of birds that use senescing or dead trees
- D.2 - Assessment of structural heterogeneity and diversity levels after the interventions
