

Gran Sasso SCI - IT7110202

Legend

-  Gran Sasso and Laga National Park
-  Gran Sasso SCI - IT7110202
-  Habitat 9210* - Apennine beech forests with Taxus and Ilex
-  Habitat 9220* - Apennine beech forests with Abies alba and beech forests with Abies nebrodensis
-  Incordaro, Intermesoli and Pietracamela Intervention areas

Actions performed in the Intervention Areas:

- A.1 - Assessment of the levels of biological diversity
- A.2 - Assessment of the current forest structure
- A.3 - Projects definition for the concrete actions
- C.2 - Promotion of the regeneration of the species that characterize the Habitats 9210* and 9220*
- C.4 - Enhancement of the diversity in terms of understory species and epiphytic lichens
- C.6 - Enhancement of the diversity of saproxylic organisms
- C.8 - Enhancement of the diversity of birds that use senescing or dead trees
- D.2 - Assessment of structural heterogeneity and diversity levels after the interventions

Scale: 1:120.000
